THE undersigned would notify his friends and the public generally, that he has purchased the interest of J. T. Luckett in this old established and well-known Hotel and will continue to entertain the public in the best uwnner that the markets, etc., will allow. He has engaged the services of his son-in-law. Wm. K. Taylor, who is well known to a large pertion of the travelling community as a man of business and who will have charge of the office. He asks the patronage of the public, and will endeavor to deserve it.

Was caught in Kentucky.

Also, there was loaged in same jail, on the 31st day of July, 185s, a Negro Man calling himself HENRY, about 170 counts; two or three front teeth out; rather a copper color, with left hand cut off near the wrist—he says by a machine. He says he once belong-dated to a man named Bowman, but belongs now to Ben, Jarrelson, near Florence, Ala. He says he was caught once and lodged in the Cullemben Jail, from which he broke. Was this time caught in Illinois.

ARCH B IDGES AND ROOFS THESE Bridges and Roofs have now been fully tested in this vieinity, and it is universally conceded that they cannot be excelled. The Roofs are wholly of Wrong'n Iron, or mixture of Wood and Iron; Sheeting always Iron.

The Bridges are whelly Wrong't Iron except the floor, which is wood, like the floors of ordinary Bridges.

We are prepared to make these structures in any quantities, at prices about as follows.

Hadrond Bridges, 50 feet span 8,000 lbs, \$17 50 per feet, lineal.

Among our recent publications are the Public and Private
Common Read or Turnpike, 50 feet span, 2,600 lbs.
\$5.5 per foot lineal.
Roofs, all iron; 50 feet width of building, \$25 per litt square feet, part wood and part iron, from \$12 to \$20 per square.
Increase of span of bridges or width of building makes an increase of price, but the increase in price is no more than the increase of wooden structures.
We can furnish from of every size to work into Bridges and Roofs and Raidrands, or other companies busing the right to use them and the iron of us, can make their own structures, one-third less than the above prices. Our structures weight only from 1-4 to 1-10 that of wood, difference in freight, for a long distance buse our work.
